

Maine Antique Power Association

Volume 30, Issue 2, May, 2023

Dear Member,

My apologies for a pretty skimpy newsletter not much to report.

Like to start by thanking the 12 members who showed up at the Skowhegan workday on May 20: Rick Gilbert, John Dubief, Carl Richardson, Will Ellis, Jim Perry, Carmen & Dave Polley, Dave Huling, Jim & Carol Curit, Gary Willison, & Don Vining. Grounds were mowed & weed-whacked, rotted fence post replaced & another shored up, several engines started, big air-cooled New Way new exhaust valve installed & timed(great compression!), new outdoor hose bib piped & installed, o-rings on 8" hot air engine piston renewed with repro leather, general clean-up. Also thanks to Rick's wife Dede who accompanied Rick on a couple of prior days.

Rick has been up several more times to cement to floor in bathroom & reset the toilet.

Reminder that our annual show is scheduled for Saturday, June 10 with a rain date of Sunday, May 11 at the Skowhegan fairgrounds. We plan to have a potluck for donation lunch. Please contact Carmen for details and coordination. Anniversary tee shirts will be on-hand for those who ordered them with a few available for those that did not. Thanks to Carmen & Candy Welch for bagging & labeling the shirts(about 5 hours work!) Also two styles of new hats as well as buttons & hopefully exhibitor's plaques. Carmen asked for members buying items to please bring cash smaller than twenty dollar bills difficult to make change. We are also looking for donations for the merchandise raffle table. Also items to add to silent auction. Gary Willison is looking for tool donations for the "Used Tool" table.

Carmen has paid our three insurances as well as GoDaddy Web Security & 10 year Domain Name renewals.

Please check 2023 Show Schedule on our website frequently for corrections & updates.

I've sent an email to Samantha Yorke at News Center Channel 6 with show information so we might attract some public.

Doug
